Of the 57 candidates elected, 25 (44%) candidates received greater than the absolute majority on first preferences.

Both the Australian Labor Party and the Liberals gained further support in the Upper House with each winning 3 additional seats, whilst Greens (WA) and Independents (formerly Pauline Hanson's One Nation) lost 3 seats each. Table 2

This table shows the official distribution of preferences for districts where one of the two preferred candidates was not from the ALP and Coalition parties. For the purpose of statistical analysis, the ballot papers from the districts of Alfred Cove, Churchlands, Greenough, Merredin, Roe, Stirling and Vasse, were notionally distributed in an attempt to identify an indicative ALP/Coalition two party preferred result. The results of these distributions appear on the following page - Two Party Preferred Analysis (districts where one of the preferred candidates was not a member of the ALP or a Coalition party).

Two Party Preferred Analysis

(districts where one of the preferred candidates was not a member of the ALP or a Coalition party)

In the districts where ALP and Coalition candidates were not the final two preferred candidates following the distribution of preferences, notional distributions were conducted along party lines (ALP - non ALP). This analysis is indicative and for academic purposes only.

As Independent candidates are not aligned with the major parties, multiple counts were conducted for the district of Alfred Cove.

Legislative Assembly Types of Votes: Comparative Summary 1989 to 2005

Early voting figures (by post and in person), while issued separately, have been aggregated as Early Votes in the graph below. This has been done to provide for easier comparison with reports of previous elections.

There was a consistent increase in the number of early votes recorded in 2005. This could be due in part, to a growing awareness of the availability of early voting.

The increase of 236 provisional votes may be related to the changes that were made to the electoral boundaries in 2003.

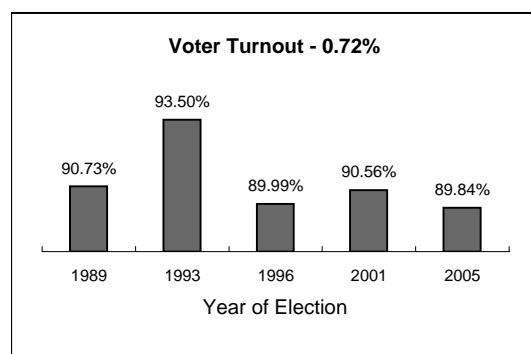

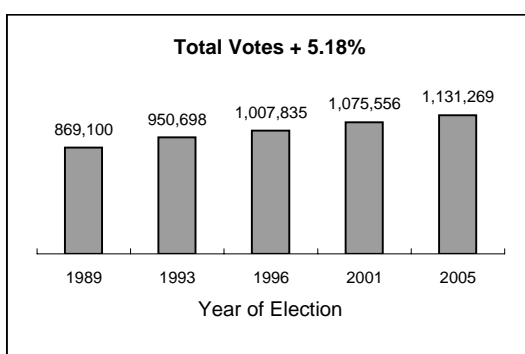

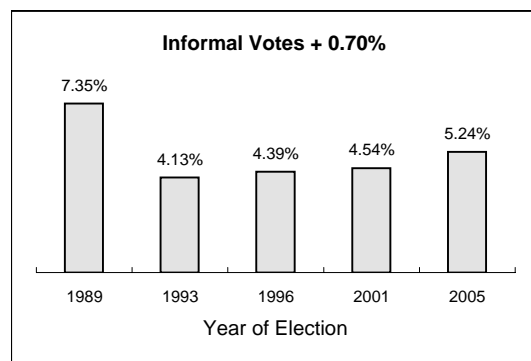

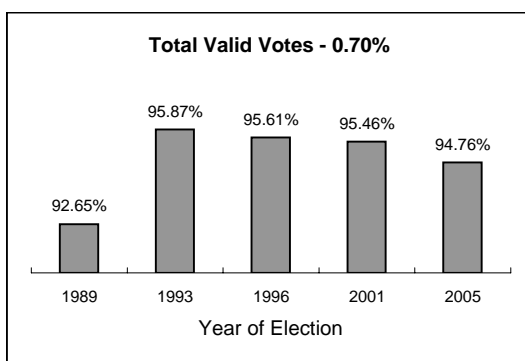

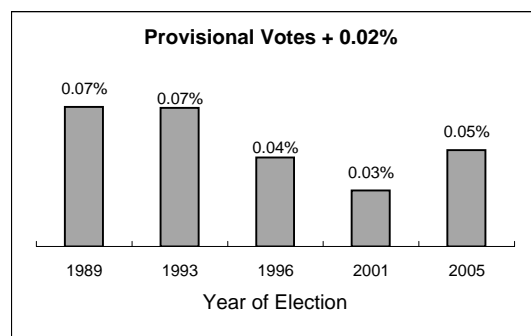

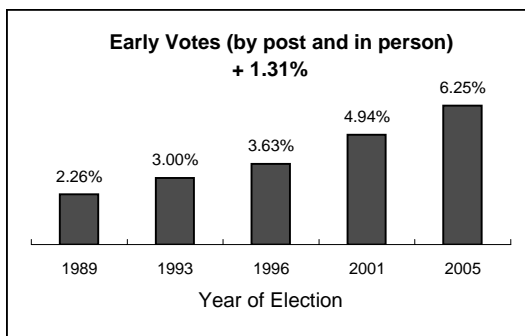

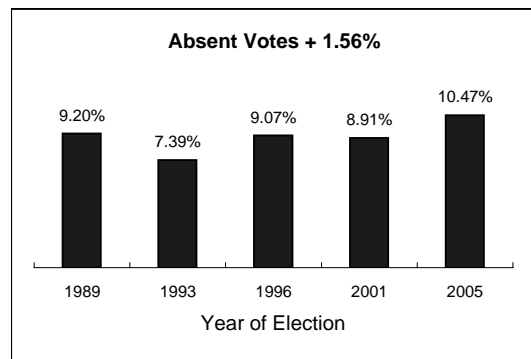

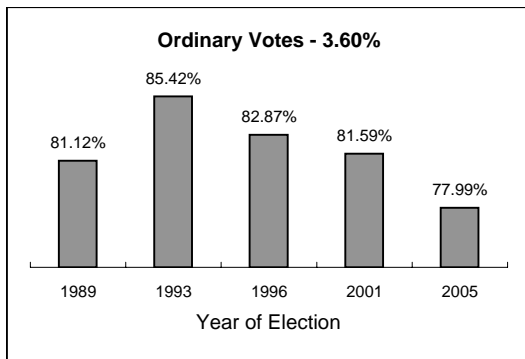

Legislative Assembly Types of Votes and Turnout: Comparative Summary 1989 to 2005

Early voting figures (by post and in person), while issued separately, have been aggregated as Early Votes in the graph below. This has been done to provide for easier comparison with reports of previous elections. The increase in early votes and absent votes may account for part of the decrease in ordinary votes.

The percentage of total valid votes has decreased by 0.70% with a similar percentage increase in informal votes.

Voter turnout does not include figures for absent, early and provisional votes rejected for not complying with the requirements of the *Electoral Act 1907*.

District Profiles and Election Results

The following section contains a district profile and election results for all 57 electoral districts.

Each profile includes the following information:

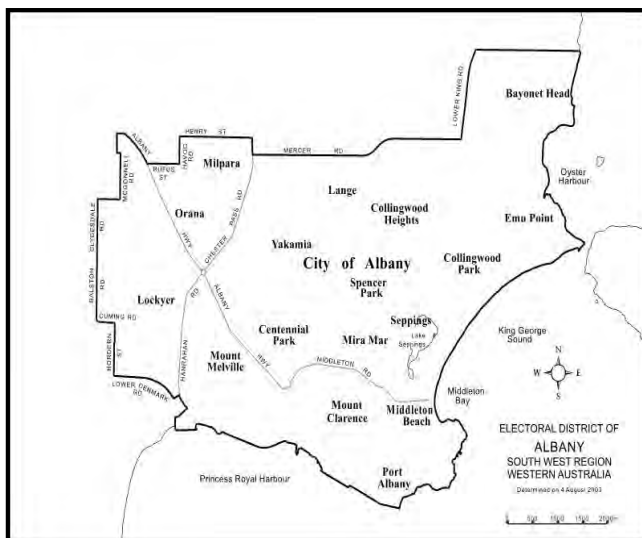

- map of district
- area
- suburbs or local governments within district (the list of suburbs is indicative only)
- number and gender of electors as at close of roll
- age break-up of electors
- number of electors per habitation
- name of Returning Officer

Following changes to boundaries at the 2003 Electoral Distribution, districts where the number of electors changed by more than 20% were deemed new districts although the district name may have remained the same. In the case of these districts and the districts given a new name, historical information on previous members has not been shown as it is not considered representative of the current district.

The election results show the first preference votes and the two-party preferred results at polling place level as well as the distribution of preferences at district level.

Legislative Council Informal Voting Summary

Informal Voting

Informal voting increased in the Legislative Council from 2.64% to 3.18% in comparison with 2001 State General Election.

Ballot papers that are blank, do not show preferences in accordance with instructions and/or legislative requirements, or do not make the voter's intention clear are classified as informal. A ballot paper will also be informal if the voter can be identified through a marking on it. Informal ballot papers do not contribute to the election of a candidate and are not included in calculating the quota or absolute majority required for election.

Blank ballot papers constituted 56% of the informal vote, and ballot papers which were scribbled on comprised 14%.

Legislative Council Type of Votes: Comparative Summary 1989 to 2005

Type of Votes Recorded

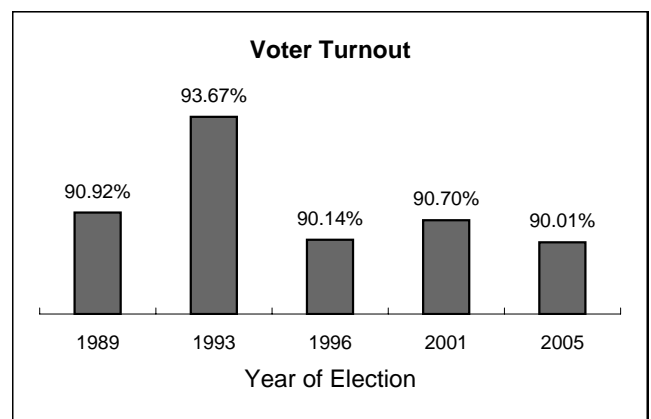

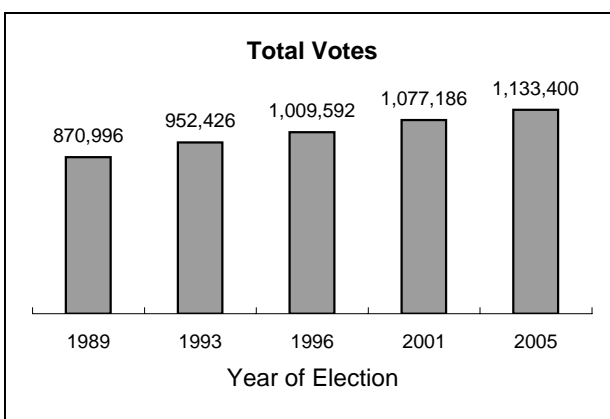

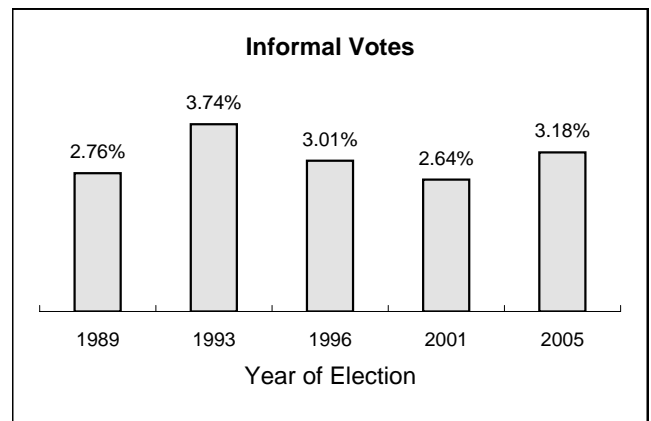

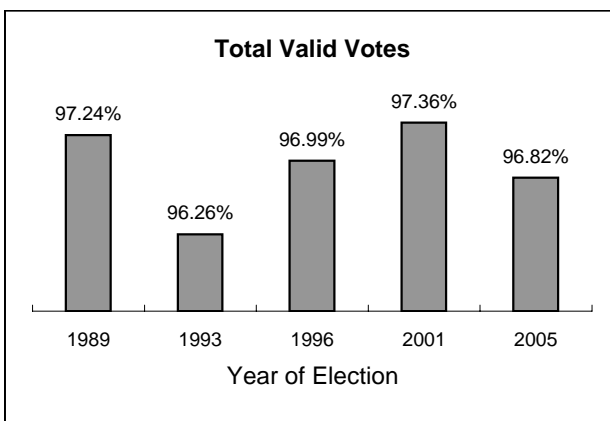

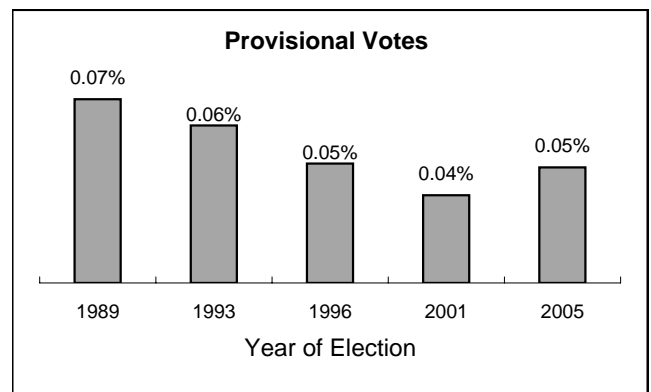

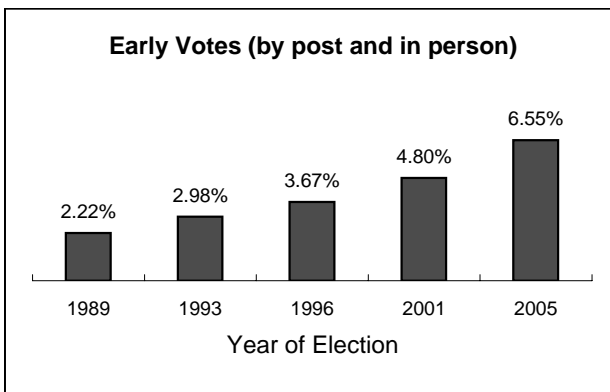

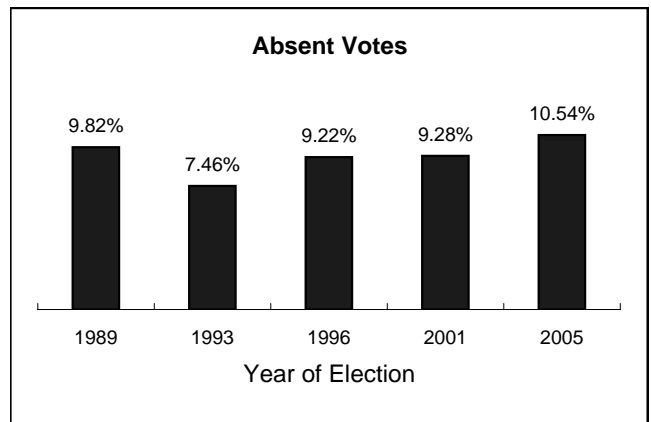

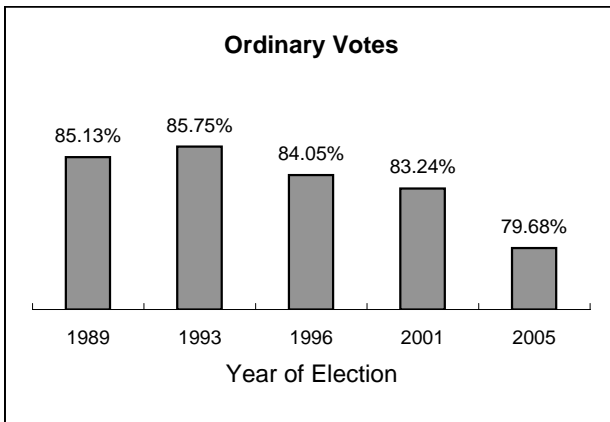

All types of votes increased in this election, especially the number of early votes (by post and in person) and provisional votes. Early voting (by post and in person) figures, while issued separately have been aggregated as early votes in the graph below. This has been done to provide for easier comparison with reports of previous elections.

There was a consistent increase in the number of early votes recorded in 2005. This could be due, in part, to a growing awareness of the availability of early voting.

- 1870 Under the terms of the *Australian Colonies Government Act 1850*, twelve elected councillors, together with six nominated by the Governor, three official and three non-official, formed the Legislative Council.
- 1887 By 1887, the Legislative Council had increased to a total of twenty six members.
- 1894 The first fully elective Legislative Council was elected on 16 July 1894. Twenty-one members were elected, three from each of seven provinces, one to retire every two years. Enrolment to vote was based on a restricted property franchise.
- 1965 Commencing from 1965, conjoint State General Elections were held for the Legislative Assembly and Legislative Council.

The following table shows the State General Election dates for the Legislative Council since 1894:

Preferential Voting System

Preferential voting is a system whereby a candidate must poll an absolute majority of the total formal votes (ie in excess of 50%) in order to be elected to the vacancy.

Under a full preferential system, a voter is required to indicate a preference for each candidate on the ballot paper by using the numbers 1, 2, 3 and so on up to the number of candidates. If, after all first preference votes have been counted, no candidate has obtained an absolute majority of all formal votes, then the candidate with the fewest number of first preference votes is excluded from the count. The excluded candidate's second preference votes are then distributed to the remaining candidates at this stage.

If, after that exclusion, no candidate has obtained an absolute majority of formal votes, the next remaining candidate with the fewest votes is excluded and all of his or her votes (second preferences and those received from the previously excluded candidate) are distributed to the remaining candidates.

The above process is continued until one candidate is elected by obtaining an absolute majority of formal votes. The absolute majority is calculated excluding informal and exhausted votes. An example of the above process is shown below for the District of Midland in 2005.

Example

Full Distribution of Preferences

Counts	GRN Hall	CDP Chew	ONP Caine	ALP Roberts	LIB Zannino	Total valid votes	Exhausted votes	Total votes
First preference votes	2,428	837	718	10,614	7,884	22,481		22,481

Step 1

The absolute majority at this stage of the count is 11,241. As no candidate has achieved this on first preference votes, Caine, the candidate with the fewest number of first preference votes is excluded. The excluded candidate's second preference votes are then distributed to the remaining candidates. These votes are then added to the remaining candidates' progressive totals. Exhausted votes are formal; however, these are not added to any candidate's total as no consecutive preference has been indicated for the remaining candidates on the ballot paper (e.g. 1,2,2,2 or 1,2,3,3).

Counts	GRN Hall	CDP Chew	ONP Caine	ALP Roberts	LIB Zannino	Total valid votes	Exhausted votes	Total votes
			Excluded					
First distribution	224	145	-718	165	178	712	6	718
Progressive total	2,652	982		10,779	8,062	22,475	6	22,481

Step 2

At this stage of the count, the absolute majority is now 11,238. As no candidate has yet achieved this, Chew, the candidate with the fewest number of votes following the first distribution (982) is next to be excluded. The excluded candidate's second preference votes from the first preferences (837) are then distributed to the remaining candidates. Her third preference votes from the first distribution (145) are also distributed to the remaining candidates. These votes are then added to their progressive total.

Counts	GRN Hall	CDP Chew	ONP Caine	ALP Roberts	LIB Zannino	Total valid votes	Exhausted votes	Total votes
		Excluded						
Second distribution	311	-982		294	374	979	3	982
Progressive total	2,963			11,073	8,436	22,472	9	22,481

Step 3

After the second distribution, the absolute majority is now 11,237. The process in step 2 is repeated at this stage for the next candidate to be excluded, Hall. His votes (2,963), which include all those transferred to him during the first and second distributions, are distributed to the remaining two candidates, Roberts and Zannino.

Counts	GRN Hall	CDP Chew	ONP Caine	ALP Roberts	LIB Zannino	Total valid votes	Exhausted votes	Total votes
	Excluded							
Third distribution	-2,963			2,053	888	2,941	22	2,963
Progressive total				13,126	9,324	22,450	31	22,481

As there are only two candidates remaining, the candidate with the absolute majority is elected. The absolute majority at this stage of the count is now 11,226, with the 31 exhausted votes having the effect of reducing the absolute majority.

Result

Michelle Roberts (ALP) is elected as the member for Midland with a majority of 1,900 votes.

Proportional Representation Voting System

Proportional Representation

This is a voting system used in multi-member electorates which is designed to ensure that the number of successful candidates from each party and independents reflects as closely as possible the total vote received as a proportion of all the valid votes cast in an election. To be successful, a candidate is required to receive enough votes to reach a quota (not an absolute majority) which is based on the number of formal votes and the number of candidates to be elected. The Legislative Council of the parliament of Western Australia is elected using a proportional representation system.

In very general terms, under the notion of proportional representation, if a party or candidate received 40% of the formal vote, that party or candidate will gain 40% of the seats in the parliament. Thus if a political party received 40% of the vote in the Mining and Pastoral Region, it could expect to gain 2 of the 5 seats allocated to this region.

The quota required is calculated using the following formula:

$$\frac{\text{Number of formal votes per region}}{(\text{Number of MLCs to be elected per region} + 1)} + 1 = \text{quota required}$$

For example:

Mining and Pastoral Region

$$\frac{50,104}{(5 + 1)} + 1 = 8,351$$

In this example for the Mining and Pastoral region, a candidate would need at least 8,351 votes to be elected.

Note: The fraction obtained by dividing the number of formal votes (50,104) by the number of MLCs plus 1 (6), is rounded down before the 1 is added to obtain the quota required i.e. 8,351.

Surplus Votes

Candidates who receive a number of votes equal to or greater than the quota are elected immediately. Any votes of these elected candidates which are surplus to the quota are transferred to the remaining candidates at a reduced value known as a transfer value. The transfer value is calculated as follows:

$$\frac{\text{Candidate's number of surplus votes}}{\text{Total number of ballot papers the candidate received}} = \text{transfer value}$$

Excluding Candidates

If at any stage there are no candidates with a surplus of votes and not all Council seats have been filled, the candidate with the fewest votes is excluded from the count.

The excluded candidate's ballot papers are distributed to the remaining candidates at the same vote value as they were received. In some counts this will mean ballot papers are transferred at the value of 1 while others will have various transfer values.

This process of distributing surplus votes from elected candidates and excluding the candidate with the fewest votes is continued until all vacancies are filled.

2004 Mining and Pastoral Region Re-Count – Resignation of the Hon. Thomas Gregory Stephens MLC

The Acting Electoral Commissioner was informed by His Excellency the Governor on 16 September 2004 that, due to the resignation of the Hon. Thomas Gregory Stephens, the seat of the Legislative Council of Western Australia for the Mining and Pastoral Region, to which he had been elected, was vacant.

Following this notification, the Acting Electoral Commissioner placed a notice in *The West Australian* and *The Kalgoorlie Miner* on Saturday 18 September 2004 advising that a vacancy existed. Nominations closed at 12 noon on Tuesday 28 September 2004. Six formal nominations from qualified persons had been received at that time.

The nominees for the purpose of this re-count were (in order that their names appeared on the 2001 ballot paper):

Candidates	Party
WYBORN, Irene Ann	Pauline Hanson's ONE NATION
LUDLAM, Scott	Greens (WA)
LEAHY, Kevin John	Australian Labor Party
NEVILL, Mark Warriedar	Independent
SCOTT, Isabella Mary	Liberal
COOPER, Vincent Charles	Independent

Accordingly, the only candidates who could be declared elected at the re-count were the six who nominated in the prescribed manner set out in section 156C and regulation 25 of the *Electoral Act 1907*. Under the provisions of section 156D of the Act a full re-count of all ballot papers cast in the most recent Legislative Council election, on 10 February 2001, commenced after the close of nominations on Tuesday 28 September 2004.

The count was conducted pursuant to Schedule 1 of the Act. As votes at the 2001 State general election were counted electronically using a software program, a re-count was required to be conducted in the same manner pursuant to section 156D(4) of the *Electoral Act 1907*, having regard for the exclusion of the Hon. Thomas Stephens.

The count commenced at 12:30pm on 28 September 2004. The vacancy was filled approximately ten minutes later. At the completion of the computer count shortly thereafter, Kevin John Leahy was officially declared elected by the Acting Electoral Commissioner. A print-out of the count was obtained for record purposes. The whole process took approximately one hour, compared with three weeks for a manual count. Re-counts are now conducted electronically, ensuring that results are available that same day. A summary of the count appears on the following pages.

2005 South Metropolitan Region Re-Count – Resignation of the Hon. James Alan Scott MLC

On 1 February 2005, the Acting Electoral Commissioner was informed by His Excellency the Governor that the Hon. The vacancy was advertised in accordance with section 156C (1) (a) on Saturday 5 and Sunday 6 February 2005 in *The West Australian* and *The Sunday Times* newspapers. Nominations for the vacancy closed at 12 noon on Tuesday 15 February 2005.

At the close of nominations the Acting Electoral Commissioner had received four formal nominations from qualified persons. The nominees for the purpose of this re-count were (in the order that their names appeared on the 2001 ballot paper):

Candidates	Party
TOWNSHEND, Pamela Lesley	DEMOCRATS
MacLAREN, Lynn Ellen	Greens (WA)
FINNEY, Richard Vaughan	
SHAVE, Lawrence	Independent

Accordingly, the only candidates who could be declared elected at the re-count were the four who nominated in the prescribed manner set out in section 156C and regulation 25 of the *Electoral Act 1907*. Under the provisions of section 156D of the Act a full re-count of all ballot papers cast in the most recent Legislative Council election, on 10 February 2001, commenced after the close of nominations on Tuesday 15 February 2005.

The count was conducted pursuant to Schedule 1 of the Act. As votes at the 2001 State General Election were counted electronically using a software program, a re-count was required to be conducted in the same manner pursuant to section 156D(4) of the *Electoral Act 1907*, having regard for the exclusion of the Hon. James Alan Scott.

On completion of the count, the Acting Electoral Commissioner declared Lynn Ellen MacLaren to be elected as the member of the Legislative Council for the South Metropolitan Region. A summary of the count appears on the following pages.
